

GT3000

Pursuing ultimate versatility of installation

Genmega introduces the **GT3000** series **through-the-wall** ATM. Designed as a true through-the-wall machine, the **GT3000** retains all the features and options of a retail floor model ATM in a small, compact weather resistant chassis, perfect for tight spaces, Kiosks or anywhere location space is valuable.

The **GT3000** uses a 7" high-resolution wide-screen LCD, 2" receipt printer and can be ordered with a fixed cassette or rear-load removable cassette dispenser. There is also an optional Rear service-panel to provide secure loading and management functions.

While the small footprint TTW chassis is all new, the **GT3000** series ATM uses existing Genmega components, so service and maintenance remain easy and familiar. The **GT3000** provides an economical through-the-wall solution.
